

# Workshop Attachment Coding Strange Situation Procedure ABC

A **five-day training** in coding the organized attachment classifications (ABC) with Prof. Dr. **Marinus van IJzendoorn**

During the training, morning sessions will be devoted to instruction and explanation. Homework assignments will be given for the afternoon, when participants code individually or in pairs cases that will be discussed in the next morning session.

After the training, participants can obtain a reliability set. Passing this test leads to certification as a reliable SSP coder for the organized classifications. For those who want to be trained in coding Disorganized (D) attachment further training will be available in the Summer of 2023. Requirement for participation in the D workshop is reliability in the ABC system. Lisbon is a beautiful city and not too expensive. In January afternoon high temperatures tend to be near 15°C/59°F with a few of the warmer afternoons getting up to near 18°C/64°F

500 € (including reliability set)

**23–27 January 2023 at ISPA in Lisbon**
